

Geo. Cook, Sheriff

Otsego County has had many sheriffs; it is an office of much importance, and one that the average man cannot well fill, but would prove a dismal failure. The duties are manifold and it requires a man of iron nerve, a good judge of human nature and a retentive memory and above all a man of acute observation. Geo. Cook, our present sheriff, embodies these qualifications in a high degree and is filling the office very acceptable to the people. Previous to his election to this office last November Mr. Cook had been the faithful village night watchman and deputy sheriff, and so ably did he perform his duties that it led to his election as sheriff.

Mr. Cook is a Mason, Odd Fellow and Maccabees.
