

Otsego Memorial Hospital

# Dedicated To Your Health Care

Willis Wegmeyer

## Report From The Chairman Of The Board

During the past years your hospital has undergone many changes and has, through the Board of Trustees, made many difficult decisions. One of the most important of these was the consolidation of all long-term debts through the sale of tax-exempt bonds at 11.1% interest. This enables the hospital to keep its costs for providing health care at the lowest level possible.

The Board of Trustees is the policy making arm of the organizational structure of the hospital. Many hours of service are donated by the members of the Board.

As Chairman of the Board of Trustees of Otsego Memorial Hospital I pledge that we will continue to provide the highest quality of medical care at the lowest possible cost.
